MASS INCARCERATION IS A FAMILY ISSUE

- 45% have had an immediate family member incarcerated.
- For Black Americans, that percentage is 63%.
- Nearly 2/3 of families are unable to meet basic needs while their family member was incarcerated.
- 64% of Americans have had a family member incarcerated. That’s around 113 million people.

- More than 1 in 3 women experienced homelessness or other housing insecurity because of family incarceration.
- 1 in 5 Americans have had a parent incarcerated.
- While all Americans are impacted by mass incarceration, Black adults are:
  - 50% more likely than White adults to have an immediate family member incarcerated.
  - 3x more likely to see a loved one imprisoned for longer than one year.

MASS INCARCERATION DOES MORE THAN DESTROY LIVES, IT DESTROYS ENTIRE FAMILIES
